Cripps Gold Falsecypress

Chamaecyparis obtusa 'Crippsii'

Height: 5 feet

Spread: 4 feet

Sunlight:

Hardiness Zone: 5

Description:

Similar to the species but with attractive golden foliage all season long, broadly pyramidal with interesting reddish bark, almost fibrous

Ornamental Features

Cripps Gold Falsecypress is primarily valued in the landscape or garden for its distinctively pyramidal habit of growth. It has attractive yellow evergreen foliage which emerges gold in spring. The scale-like sprays of foliage are highly ornamental and remain yellow throughout the winter.

Landscape Attributes

Cripps Gold Falsecypress is a multi-stemmed evergreen tree with a distinctive and refined pyramidal form. Its relatively fine texture sets it apart from other landscape plants with less refined foliage.

This is a relatively low maintenance tree. When pruning is necessary, it is recommended to only trim back the new growth of the current season, other than to remove any dieback. It has no significant negative characteristics.

Cripps Gold Falsecypress is recommended for the following landscape applications;

- Accent
- General Garden Use

Planting & Growing

Cripps Gold Falsecypress will grow to be about 5 feet tall at maturity, with a spread of 4 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front, and should not be planted underneath power lines. It grows at a slow rate, and under ideal conditions can be expected to live for 70 years or more.

This tree does best in full sun to partial shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments, and will benefit from being planted in a relatively sheltered location. Consider applying a thick mulch around the root zone in winter to protect it in exposed locations or colder microclimates. This is a selected variety of a species not originally from North America.
