

# Rainbow Knock Out Rose Rosa 'Radcor'

Height: 4 feet Spread: 3 feet

Sunlight: O D

Hardiness Zone: 5

Group/Class: Shrub Rose

#### **Description:**

A truly carefree rose, this variety is compact and bushy and blooms profusely throughout the season; it is highly disease resistant and has gorgeous coral petals framing a soft yellow center, fading to shades of pink

#### **Ornamental Features**

Rainbow Knock Out Rose is bathed in stunning coral-pink flowers with hot pink overtones and yellow centers at the ends of the branches from late spring to early fall, which emerge from distinctive rose flower buds. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall color. The fruits are showy red hips displayed in late fall.

### **Landscape Attributes**

Rainbow Knock Out Rose is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a relatively low maintenance shrub, and is best pruned in late winter once the threat of extreme cold has passed. Gardeners should be aware of the following characteristic(s) that may warrant special consideration:

- Spiny

Rainbow Knock Out Rose is recommended for the following landscape applications;

- Mass Planting
- Hedges/Screening
- General Garden Use

## **Planting & Growing**

Rainbow Knock Out Rose will grow to be about 4 feet tall at maturity, with a spread of 3 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub does best in full sun to partial shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.
